Data Dictionary and Field Semantics

Repository: https://github.com/manasgite54-cmd/EV-project

Purpose and Context

The data dictionary defines the meaning and allowed use of each column. Exact column names must be mapped from the actual CSV header; the concepts below are not a substitute for inspecting the real schema.

- Vehicle category: exact column [TO BE VERIFIED]; categorical; preserve unknown values separately from confirmed categories.
- Battery type: exact column [TO BE VERIFIED]; categorical; document source labels and mapping decisions.
